

2026 LINEUP

NEW FOR 2026

SPORT SCOUT RT

New for 2026, Indian Motorcycle has introduced Sport Scout RT – featuring a modern design and adding a more aggressive and capable spirit to the Scout lineup. Locking Rigid Saddlebags offer over 37 liters of weatherproof storage and are capable of fitting an entire set of riding gear, including boots, pants, a jacket and gloves. Whether commuting, cruising, or on a weekend getaway, the top-down design is incredibly convenient and maximizes cargo capacity.

New color matched fenders and quarter fairing paired with new graphics give the Sport Scout RT a complete custom-inspired

look straight from the factory. Stylish gloss black 152 mm moto style risers with machine highlights come standard. Machined triples and moto handlebars complete the package, both in custom looks and dialed ergonomics. Its sport solo seat provides lower back support and offers incredible comfort on longer rides without compromising the bike's sleek styling. The Sport Scout RT's quarter fairing not only keeps wind off the rider's chest, but delivers a stylish and custom look straight from the factory. Sport Scout RT's 19-inch front wheel adds to the aggressive nature of the bike – both in design and agile handling.

- FEATURES:
- COLOR MATCHED FENDERS AND QUARTER FAIRING
 - LOCKING RIGID SADDLEBAGS
 - SPEEDPLUS 1250
 - MOTO STYLE RISERS & MACHINED TRIPLES
 - SPORT SOLO SEAT
 - 19" FRONT WHEEL

CRUISER

SCOUT SIXTY

Starting at the most accessible price point, the Scout Sixty lineup takes everything you love about the Scout and delivers it in the most affordable and accessible American V-twin cruiser on the market. The Scout Sixty platform features a SpeedPlus 999cc engine that delivers 85 horsepower and 87 Nm of torque through a 5-speed transmission, combining classic V-twin sound and feel with liquid-cooled performance.

Three distinct models offer a range of styles and customizable setups for any rider. The Scout Sixty Classic has 16-inch wheels, chrome exhaust, and sweeping fenders, while the Scout Sixty Bobber is stripped down with a blacked-out look and bobbed rear fender. The Sport Scout Sixty features an quarter fairing, a 19-inch front wheel, and LED lighting. Plus,

the Limited Trim offers cruise control, traction control, ride modes, and a USB charger. With world-class fit and finish, you can't go wrong with any model.

The Scout Sixty's class-leading low seat height and tubular frame provides nimble handling and enhances rider confidence with easy starts, stops and mounting. Mid-controls center your weight for better maneuvering and comfort, while 32 ergonomic options ensure all riders can tune the Scout Sixty to fit their needs. The Scout Sixty lineup balances style, power, and control for experienced and new riders alike. It's a classic American V-twin cruiser you can ride and grow into — not out of.

- FEATURES:
- MOST ACCESSIBLE PRICE POINT

INDIAN SCOUT

Born from Icons, and Ridden by Legends, the Scout lineup is inspired by history but redesigned for the style of today. All feature iconic American design and a legendary balance of power and control.

Stripped down with an aggressive stance and raw power, the Scout Bobber is the perfect expression of iconic bobber style. Super Scout is built for the open road and any type of riding. With premium chrome finishes, saddlebags, wire wheels, windshield, and passenger pillion, we make sure no corners are cut or details overlooked.

The Scout Classic is where heritage-inspired design meets the needs of today's American cruiser rider. Classic Indian Motorcycle flared fenders and timeless paint add to the authentic style and will turn heads at every intersection.

The Scout lineup sets the standard for American cruisers with the widest range of ride-enhancing technology riders demand and are available in two trim levels - Standard or Limited +Tech. All Scouts feature a low seat height and relaxed ergonomics for an easy, confident ride at every speed, whether you're commuting or going on a weekend trip.

SPORT CHIEF RT

The Sport Chief RT takes the ultimate American V-twin cruiser to the next level with a host of factory-installed accessories that take your riding to the next level. The Locking Rigid Saddlebags offer over 37 liters of combined space, keeping your gear dry and secure. Whether you're commuting, cruising, or on a weekend getaway, the top-down design maximizes cargo capacity. Music pairing, changing ride modes, and navigation are easily managed through the 4-inch touchscreen display powered by RIDE COMMAND. And the new 2-Up High Bolster Seat enhances comfort and support while preserving performance-driven style.

The Sport Chief RT features the legendary air-cooled Thunderstroke 116 V-twin, producing 156 Nm of raw torque that dominates in all 6 gears, giving you the power to leave everything behind. Sport Chief RT can be further customized with Moto Handlebar Risers, the High Mounted Tee Bar for stylish slow-speed tip-over protection and a Tall Flared Wind Deflector to take the Sport Chief RT's style and function to the next level. Purpose-built to perform, from city streets to full days on the road, the Sport Chief RT does it all.

CHIEF

Combining iconic, American V-twin style with modern performance and technology, Indian Motorcycle designed the Chief with a simplistic and mechanical aesthetic that pays homage to the glory days of American motorcycling. The Chief lineup boasts a classic compact stance and simple steel frame in both classically styled and modernly mean designs.

The Chief Dark Horse provides a stripped-down riding experience where power, minimalism and attitude lead the way. The Chief Bobber Dark Horse pays stylistic homage to the muscular, classic post-war era V-twins. Super Chief Limited and Dark Horse, with saddlebags and windshield, beg riders for a bolder escape. At the heart of all models is the legendary Thunderstroke V-twin engine, providing smooth, effortless power. With this bike's timeless design and technology hidden in plain sight, it reignites the passion for the simple pleasures that last the test of time; like craftsmanship you can see and feel firsthand. Get lost and found at the same time.

- FEATURES:

BAGGER

CHIEFTAIN POWERPLUS

The Chieftain PowerPlus boasts a distinctive, powerful style that's uniquely American. The fork-mounted fairing's design is sleek and aerodynamic, offering better handling and stability at high speeds to provide superior control. And we've turned the power up to 112, for experienced riders who never lost the thrill and adrenaline of going fast on two wheels. That adrenaline rush is at the heart of Indian Motorcycle's fiercest American V-twin in the game. The contemporary design of PowerPlus—a high revving, liquid cooled engine with overhead cams and 4 valves per cylinder—delivers both high horsepower for sustained high speeds and high torque for instant acceleration.

The Chieftain PowerPlus allows riders the flexibility to dial their ultimate power bagger. It also sports the most advanced and innovative set of Rider Assist Technologies on an American Bagger. With distinctive American style, unmatched power, capability, and tech, the Chieftain PowerPlus is most advanced, highest performing, no compromises American V-twin bagger Indian Motorcycle has ever offered.

- FEATURES:
- FORK-MOUNTED FAIRING
 - FULL LED LIGHTING
 - INVERTED FORKS
 - BREMBO® DUAL DISC BRAKES
 - SMART LEAN TECHNOLOGY™
 - LOW PROFILE 2-UP SEATING
 - 3 RIDE MODES: RAIN, STANDARD, AND SPORT

BAGGER

INDIAN CHALLENGER

The Indian Challenger design style captures the spirit of Indian Motorcycle's innovative, American design legacy. It's sculpted with confident and chiseled lines that are a visual representation of its high-performance heart. The compact stance looks nimble and athletic, while still displaying an imposing silhouette that commands respect. The chassis-mounted fairing's design is powerful and aerodynamic, offering light handling and stability at sustained high speeds to provide superior control and confidence.

Indian Challenger's PowerPlus engine design is backed by performance proven in the most demanding environment — racing. Our 112 cubic inch PowerPlus dominated the larger displacement competition and won the 2024 MotoAmerica King of the Baggers Championship on an Indian Challenger. That same 112 cubic inch engine is available in both the Indian Challenger Dark Horse and Indian Challenger Limited models. Like our race team riders, you almost need to relearn how you ride, because with PowerPlus, there's instant acceleration and effortless sustained high speeds. It also sports the most advanced and innovative set of Rider Assist Technologies ever on an American Bagger.

FEATURES:

- CHASSIS-MOUNTED FAIRING
- FULL LED LIGHTING
- INVERTED FORKS
- BREMBO® DUAL DISC BRAKES

ROADMASTER POWERPLUS

Roadmaster PowerPlus completely redefines what to expect in an American V-twin Performance Touring bike. Where distinctive American style, next generation performance and technology come together to crush big miles in comfort. It's built from top to bottom with The Power To Roam—designed for riders who long to accelerate away from the everyday to find themselves, and where the only rule is the horizon ahead. The fork-mounted fairing's design is sleek and aerodynamic, offering better handling and stability at high speeds to provide superior control as the miles roll by. Its compact stance makes it look lighter, nimbler, and more athletic, while still providing ample comfort for a passenger.

The PowerPlus engine is the quite simply the most advanced, highest performing, American V-twin Indian Motorcycle has ever offered. Its contemporary design—a high revving, liquid-cooled engine with overhead cams and 4 valves per cylinder—delivers both high horsepower for sustained high speeds and high torque for effortless acceleration. It also sports the most advanced and innovative set of Rider Assist Technologies on an American touring bike. If you're an experienced rider who's discerning enough and demand nothing less than the very best, the Roadmaster PowerPlus offers a no compromises American V-twin touring bike that stands alone.

INDIAN PURSUIT

The Indian Pursuit stands out as one of the most advanced and capable American V-twin touring bikes available today. It's built from top to bottom with The Power To Roam — designed for riders who live to crush big miles and see every open road as an invitation to dominate. Distinctive style is always a goal on a bike you want to take you as far as the road allows. Indian Pursuit boasts a style that stands out and gets noticed. But it's equally important to showcase a style that speaks to a bike's function, its presence, and its performance touring potential. We call that design philosophy Precision Tuned for Touring.

At the performance heart of Indian Pursuit is the PowerPlus engine. It's designed with an architecture unique in American V-twins to maximize horsepower without sacrificing torque. We inherently believe high horsepower and high torque are what make the best V-twin touring bikes. Liquid cooling is essential to maintain optimal performance, durability, and comfort under all conditions touring riders see. It also sports the most advanced and innovative set of Rider Assist Technologies on an American touring bike. If you're a rider who values distinctive American style that endures, yet craves an exhilarating riding experience where unmatched power, capability and tech means the miles fly by with ease, then Indian Pursuit is the bike for you.
